SOCIAL EUGENICS

BY FRED HOGUE

All I want to do in this article is make you aware of the dietetic approach to the fact that high blood pressure and digestive disturbances are really one and the same thing.

A DOZEN YEARS LATER

Los Angeles, Cal.

high-pressured "Doit-now-or-you-willdie" psychology, she had her appendix revocated the same thing. When the proved.

More than a dozen years have passed the case history has been. First came with chronic constipation. Never a normal movement—and finally collits.
